### **Erratum**

After publication of this article [1], it was noticed that equation 1 incorrectly contained an additional '+' sign. The correct version of equation 1 is included in this

$$\frac{dx_i}{dt} = \frac{m_i x_i}{k_{ie}} \left( k_{ie} + \sum_{j=1}^{N} \omega_{ij} x_j \right)$$

In addition, it was noticed the email address for the corresponding author, Daniel A. Power, is incorrect. This is correctly included in this erratum under the correspondence section.
